

viagraph^{3.0}

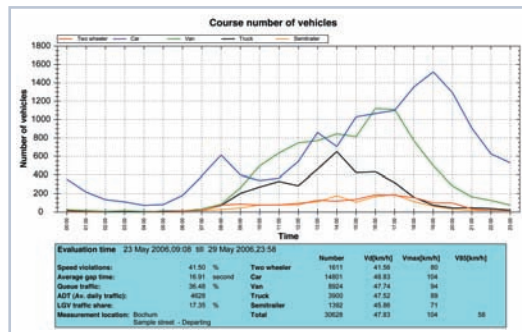

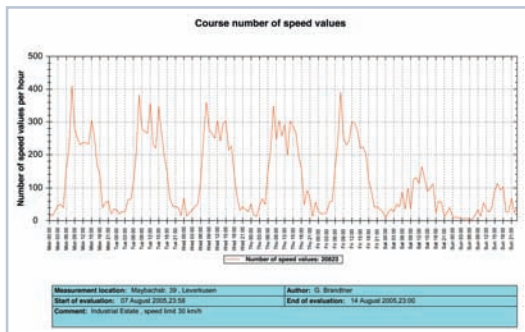

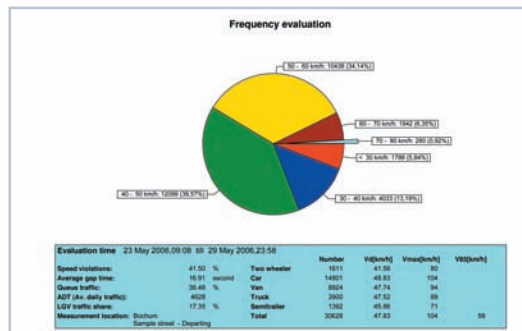

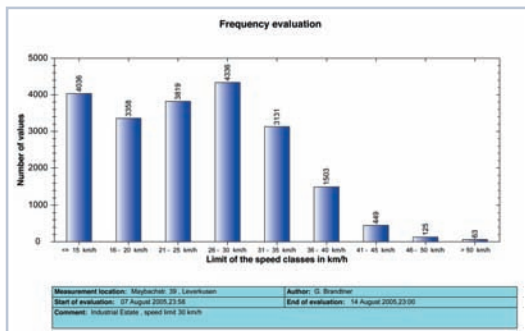

Our software for data evaluation on CD.

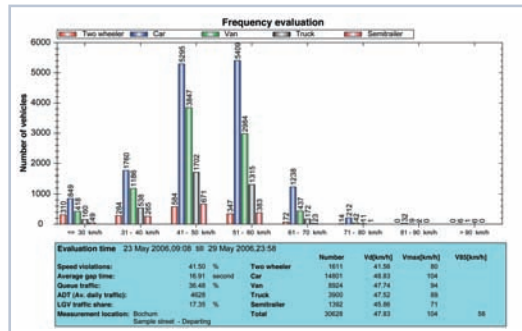

Data collection / Data evaluation:

For all viasis speed information systems* and the viacount II traffic counter, the CD with the communication- and data evaluation software viagraph is included in delivery. The easy handling and installation of viagraph provides you with a comprehensive data evaluation. If desired, the data can be transferred with a mouse click to MS Excel. Benefit from our regular and free of charge software updates.
